The entire debt of the State of Connecticut, according

to the message of Governor Hawley, is \$10,400,000, bearing six per cent interest. Against it are the sinking fund, \$1,211,767; the bank stock owned by the State,

whose market value is \$371,300, and cash in hand, \$353,644. A deduction of these three items shows that

the existing liabilities, over and above assets, amount to \$8,463,288.

THURSDAY, May 3-6 P. M. The stock market opened under some little depression this morning, consequent upon a transient feeling of distrust, produced by the Ross forgeries; but, as the day advanced, the speculative feeling became strong and prices improved. The prospect of the ultimate passage in longress of the Consolidation of the National Debt bill, in-reduced by Mr. Sherman in the Senate yesterday, tended inspire confidence in the future stability of values indefinite continuance of the prevailing monetary The bill is received with favor both in Wall street and among the commercial community, but the present nuthoiders very naturally object to the proposed reduc-on of the rate of interest to five per cent. This last is, ion of the rate of interest to we per cent. This has as a somewor, a matter of very little consequence in comparison with the saving of interest, which, if directed annually to a sinking fund, would be sufficient in less than forty years to liquidate the entire national debt. The great inducement to make conversions into this funding loan will lie in s complete exemption from all federal or State taxa-on, as provided by section 2. The telegraphic summary of the bill sent on yesterday made no mention of this provision, and hence in remarking upon it in this orning's issue we spoke of the seeming absence of this
uportant clause, which will doubtless provoke some ale. With such an exemption, however, the principal and interest of a thirty of interest on five-twenties to five per cent every likelihood that it would become popular. The vides that not less than thirty millions annually shall be set apart as a sinking fund for the reduction of the principal of the debt in lieu of that contemplated by the act of February, 1862. This amount, including the saving of interest, is to be taken out of any moneys in the Treasury not otherwise appropriated. The fourth section of the act relating to notice of con-version of seven-thirty notes is uncalled for, and will

parrassing to the Treasury and puzzling to the people. At the early session of the open board the market was heavy. New York Central sold at 92%, Eric 73%, Reading (sales 2,700) 106% a 1/4. Michigan Southern (sales 5,600) 77% a %, Cleveland and Pittsburg (sales 3,400) 81, Rock Island 12314, Northwestern 28-preferred 5814 a 14, Fort Wayne 98% a % Canton 58% Mariposa preferred 23%. At the first regular board a decided improving tendency was manifested, but there was no important change in quotations. Michigan Southern closed 134 lower than at the half-past two board yesterday, North-western preferred 1, Rock Island 35, Reading 35, Michi gan Central 14, Mariposa preferred 1, Canton 14, Cumber and 14, Quicksilver 15. ated stock at a reduced rate of interest is one which

itself to all sound financiers. At present we have to deal with an incongruous mass of securities, equally em-

Respecting banks the Governor remarks:—
During the year forty-one banks, with an aggregate capital of \$12,087,000, in addition to those which had previously taken this course, organized under the National Banking act, leaving but eight State banks, with an aggregate capital on the 1st of April of \$1,985,930, and a circulation amounting to \$1,275,732. The capital of all the ninety banks, State and national, amounts to \$23,812,243. On the 1st of January there were fifty-one savings banks, fifty of which reported assets amounting to \$23,891,454, and deposits amounting to \$23,810,014. The higher rate of, interest paid by adjoining States, and especially by the general government, has reduced the doposits \$1,823,214 during the past year, and gradually led the trustees to invest more than a quarter of the whole in national bonds. At the one o'clock sessions the market was firm, and t continued so till the half past two board, when it bean at the first regular board, Eric M. Reading 134, Michigan Southern 114, Cleveland and Pittsburg 114, Northwestern 34, preferred 1, Rock Island 34, Fort Wayne 134, Mariposa preferred 34, Canton 134, Quick-silver 35. At the open board at half-past three prices continued in the ascendant. New York Central sold at 92½, Erie 74¼, Hudson River (b. 3) 110½, Rending (s. 3) 107½, Michigan Southern 78½, Canton 95½, Mariposa preferred 23½, Afterwards the market remained steady, and at half-past five New York Central was quoted at 29½ a ½, Gleveland and Plitsburg 82¼ a ½, Rock Island 124½ a ½, Coveland and Plitsburg 82¼ a ½, Rock Island 124½ a ½, Goveland and Plitsburg 82¼ a ½, Rock Island 124½ a ½, Coveland and Plitsburg 82½ a 59, preferred 50½ a 60.

At the second board Gunnell Gold closed 9c. higher than at the first board, selling at \$1.09; Smith and Parmelee 40c., selling at \$10 15; Buchanan Farm sold at 37c. Pithole Creek \$2 55, Shade river 37c., 40c. (b.3), Holman Gold 42c.

There were no new developments in connection with the forgeries of John Ross to day, but the cachier of the Continental bank explicitly denies the loosely made statement that the check drawn by Ross upon that institution in favor of J. S. Crouise A - Co., for \$63,062.50, with a forged certificate of the paying teller, was sent to the bank by the payers be-fore depositing it in the Bank of the Commonwealth and the certification pronounced genuine by the teller. The check in question was never seen at the Continental Bank until it came through the exchanges from the Clearing House, and the forgery of the teller's certificate was then immediately detected, and a return of the amount of the check demanded from the Bank of the Commonwealth. The report that the Continental Bank refused to show its certificats book is declared to be equally false. The fact that, in addition to the checks, Ross forged and hypothecated Michigan Central Railway bonds, goes to prove that the whole scheme of his fraud was a long preconcerted one, and that he was a mere counterfeiter who had turned his attention to Wall street instead of
